

Words from our Clients:

"TekConnect makes my job as an HR Generalist so much easier. Their efficiency in pre-screening candidates ensures I only receive qualified candidates. When we began working with recruiting firms, TekConnect was one of three firms we selected. We had tapped out the market with traditional advertising and knew it would take a fresh approach to find more programmers and database administrators. TekConnect quickly set the benchmark of standards and continues to exceed our expectations. They reduced my interviewing time allowing me to focus on managing the hiring process among other responsibilities. Our firm is very pleased with their accountability and commitment to service."

"When I introduced you to the firm, you had 3 other competitors vying for our business. You have outperformed all three by delivering higher caliber candidates and the quantity of candidates we need for this hiring initiative. The management team is very impressed with your leadership and your success. Now, we would like to introduce you to our customers to provide resources to them as well."

"TekConnect rates at the top with communication, professionalism and job skills. I had a great experience with TekConnect when they recruited a training manager for us. They stayed on top of the task, gave me consistent feedback and status, gave opinions where appropriate, and always acted in a very professional manner. Bottom line was that they recruited a wonderful candidate for the position."
